European Velomobile
Seminar

23. April 2004

"Towards Commercial Velomobiles"

Scope

Since its launch this seminar has been held many times showing advancements and prospects in **velomobile** technology. The main subject of the recent seminars were design, safety, transport and assisted **velomobiles**.

This next seminars main topic is “**Towards Commercial Velomobiles**”.

Velomobiles attract more and more attention due to the advantages like reduced aerodynamically drag, rain protection, comfort and security. Even though there are such striking arguments, the production rate of **velomobiles** is still very low. The seminar’s main goal is to identify means how velomobiles could be improved in both technical and utility manner. Suitable constructed and produced velomobiles could fill the gap between cars and bicycles in future traffic.

Topics

For example, the contributions could be to the following topics:

- Production aspects of commercial **velomobiles**
- Criteria for new everyday **velomobiles**
- Design of **velomobiles**

Proceedings

The papers presented at the seminar will be published on CD Rom which will be available at the seminar. The main language of the proceedings is English, German contributions will also be accepted. Detailed instructions for the authors will be available at the seminar web site.

Key Dates and Deadlines:

Submission of Abstracts

1.11.2003

Notice to Authors

December 2003

Submission of Manuscripts in electronic form: 1.2.2004

Call for Papers

The organisers invite prospective authors to submit an abstract relating to the adjacent topics. Abstracts should not exceed 300 words in length and should be submitted in digital format. Along with the submission of the abstract, authors are kindly asked to register.
